Amendment to the Claims:

Before claim 1, please delete the word "Claims" and substitute the following: WHAT IS CLAIMED IS:

Please cancel all of the claims of the application, namely claims 1-6, and add the following new claims 7-11:

1-6.   (Canceled)

7. (New)   A safe comprising: an inner safe door, an outer safe door, the inner and outer safe door at least partially overlapping each other, said inner and outer safe doors being pivotable about at least one of the same pivoting axis and different pivoting axis between a position covering an opening of the safe and a position releasing said opening, the inner safe door having at least one cutout through which at least a portion of a space defined inside the safe is accessible after the outer safe door is opened, and wherein the remaining inner area is accessible only after both safe doors are opened.

8. (New)   The safe as defined by claim 7, further comprising a safe lock and wherein the inner and outer safe doors each include a dedicated locking mechanism which can be actuated by said safe lock.

9. (New)   The safe as defined by claim 8, further comprising different keys each having different unlocking privileges assigned thereto and wherein the safe door locking mechanisms can be actuated by a single lock in such a way that a key with a low unlocking privilege is only able to unlock the outer safe door, while both safe doors can be unlocked at the same time with a key of high unlocking privilege.

10. (New) The safe as defined by claim 8, wherein the lock is actuatable with a mechanical key.

11. (New) The safe as defined by claim 8, wherein the lock is a code lock which can be actuated electrically.
